

# Torero Tuesday

## Student Scavenger Hunt

### STOP #1

This building was established in 1985 and was largely funded by the chief executive officer of a large publishing company that is responsible for the distribution of the San Diego Tribune. This donor has made key gifts to an auditorium in the San Diego Museum of Art and this building on campus. Hint: You're likely to be here a lot during finals week!

### STOP #2

A \$50 million dollar donation helped fund the construction of this building. One of the donors was an artillery officer in the United States Marine Corps and later became CEO of Coca-Cola North America, before reaching their pinnacle at The Clorox Company. Hint: This building just opened this year!

### STOP #3

This building opened in 2004 and was made possible with a generous gift from an alumnus who graduated in 1961. This building is home to departments like Alumni Relations, Advancement Operations, and the Office of Annual Giving. Hint: This three-story, 28,000 square-foot building is located near the main USD campus entrance!
