

Dear <First Name>,

For over 180 years, the Columns have stood as the doorway to opportunity.

Thousands of Tigers have passed through them in the hopes of bettering their future — originally as the entryway to Academic Hall, and today, as part of Tiger Walk, our ceremonial welcome for incoming students. More than 5,000 new Tigers joined us for this year’s celebration, and I cannot wait to see what they bring to our Mizzou family.

As the future of our Alumni Association, it’s so important that we maintain and enhance the experiences that will make these students Tigers for life. Thanks to members like you, we’re distributing a record \$667,000 in scholarships, as well as supporting new traditions, like our Mizzou 18 and ’39 awards.

But there are always more doors we can open. And your support is key.

From leadership programming and scholarships to grand traditions like Homecoming, the Mizzou Traditions Fund ensures our future Tigers enjoy all the experiences and opportunities available to today’s Tigers.

Your past giving has opened doors for our students; **help us continue to open doors by making a gift to the Mizzou Traditions Fund**, and join us in Making Mizzou Stronger for generations of Tigers to come.

Dear <First Name>,

As the future of our Alumni Association, it’s so important that we maintain and enhance the experiences that will make these students Tigers for life. Thanks to members like you, we’re distributing a record \$667,000 in merit- and need-based scholarships, as well as supporting new traditions, like our Mizzou 18 and '39 awards.

But there are always more doors we can open. And your support is key.

From leadership programming and scholarships to grand traditions like Homecoming, the Mizzou Traditions Fund ensures our future Tigers enjoy all the experiences and opportunities available to today’s Tigers... and even more.

Will you help us open doors for our students with your gift to the Mizzou Traditions Fund? Please join us in Making Mizzou Stronger for generations of Tigers to come.
