Dear [[S1:first_name]],

As a first-generation Burkinabé-American studying at GW, I am deeply grateful for the financial aid that allows me to learn, develop and grow.

Unfortunately, I know many students who have experienced unexpected financial problems: for some, that can be the difference between graduating or not.

You can make a difference for those students today by [making a gift to the GW Cares Student Assistance Fund](#).

On this international day of giving, join our GW community in providing support to students with emergency health, transportation, and other needs. It is so inspiring to see the generosity and support of our GW community!

Please show up today, show you care, and make a gift to [the GW Cares Student Assistance Fund](#)!

Raise High!
