

All because of you.

The Campaign For
UC San Diego

Help us continue the nontradition.

At the University of California San Diego, challenging convention is our most cherished tradition.

Through the Campaign for UC San Diego – our university-wide comprehensive fundraising effort concluding June 30, 2022 – we are enhancing student support, ensuring student success, transforming our campus, connecting our community, and redefining medicine and health care on a global scale.

Thank you for your continued support.

All things possible.

Dear <Name>,

I am proud that the expertise of UC San Diego's world-renowned faculty and health care teams has made UC San Diego a nationally recognized example of what to do during a pandemic. I am humbled that our campus has been one of the safest places in the country.

This year, we continue striving to keep our students, faculty and staff, alumni, and community members not only safe, but also inspired. UC San Diego is a beacon of hope and a powerhouse of possibility.

Our campus and our health care facilities continue to attract the best and brightest students, researchers, faculty, physicians, and clinicians. Together these individuals perpetuate our culture of collaboration and engage in our spirit of innovation to solve society's problems, discover cures and develop new treatments.

This is the time of year when I ask you — our extended UC San Diego family — to become my partner and join me in supporting worthy causes for continued health, success, and well-being in our community.

If you desire to support our students, who have endured so much, gifts to the **Student Health and Well-Being Fund** will provide vital support for mental health counseling and workshops to promote their physical, emotional, social, spiritual, and intellectual well-being. Or consider participating in my **Scholarship and Fellowship Challenge** to help promising students pay for tuition and college expenses. I will match every \$2 gift with another dollar. Together, we can provide increased access to UC San Diego and help ensure students are successful on our campus and beyond.

Equally important is the health care that we provide to you and the community. A gift to the **Herbert Wertheim School**

of Public Health and Human Longevity Science provides support for research priorities and addressing community public health issues, propelling medical research and experiential learning forward in incredible ways. Or please consider supporting our **Student-Run Free Clinic**, which provides high quality health care for underserved community members, while training the next generation of medical professionals.

There are numerous opportunities beyond these priorities for you to impact the academic and health initiatives that are closest to your heart.

With 2022 on the horizon, I see the goodwill that surrounds us, and I am grateful. Thank you for your support and commitment to UC San Diego.

With kind regards,

Chancellor's signature
