

We believe that parent and family support aids student success. That is why the Parent and Family Association works to keep you connected, informed and involved with the university and the life of your student.

Whether it's inspiring your student to take on a leadership position with a campus organization or sending them a reminder about their financial aid deadlines, parent and family involvement increases the chances that a college student will graduate and be successful. The Parent and Family Association is here to support you and help you stay connected to Augusta University!

STAY CONNECTED through campus events

We want you to stay connected to the university and come back to campus for regular visits, whether you live 10 minutes from campus or a plane ride away. Throughout the year we have several events that parent and family members are invited to, like:

- Parent and Family Weekend
- Augusta U. Brew-N-Que
- Homecoming
- And More!

There are so many wonderful events on campus throughout the year that we encourage parents and family members to attend.

STAY INFORMED about what matters most

FASFA deadlines. Finals. Registration. It's hard for everyone to keep up with everything that is going on at Augusta University, but the Parent and Family Association makes it easier. We send periodic emails throughout the year to let you know what's going on, when things are due, and what's new on campus.

STAY INVOLVED to ensure student success

We want you to be involved! Whether it's coming to one of our Parent and Family Association events, getting together with other AU parents or serving on the AU Parent and Family Advisory Board, we want to hear from you. By getting involved, you can help enhance the student experience at AU and ensure the success of your student, as well as the generations of students to come.

GET INVOLVED TODAY

The Parent and Family Association provides many great opportunities to connect families to the university to be partners in the success of their students.

Get involved today!
