

## PARENT AND FAMILY LEGACY GIVING

Thank you for entrusting your student's education to the University of Maryland!

As you and your student approach the end of their undergraduate career, you will undoubtedly reflect on the people, places, and programs that made their University of Maryland experience exceptional. Did a professor at the iSchool ignite an unknown passion or broaden an interest towards a new career path? Has an experience outside the classroom resulted in a new awareness, confidence, or perspective? Have lifelong friendships been forged through shared common interests?

**Parent and Family Legacy Giving** is a special way to celebrate your student's accomplishments. It's also a way to enrich the iSchool for future generations. With your support, we can ensure students with a story to tell receive the resources to do so.

We invite you to help us in honoring your graduating senior by supporting an area of the iSchool which is meaningful to your student and to your family. By becoming a Legacy Donor, you help set a philanthropic path for your graduate as they enter into a life-long association as a UMD alumnus.

Parent and Family Legacy gifts can support any number of campus priorities, including **academic and scholarship support, transformational experiences**, and the **iSchool Excellence Fund** which provides financial aid to support areas of greatest need and help students facing hardships.

As a participating Terp family you can recognize and celebrate your student's accomplishments and express gratitude to the people who made a difference in their UMD journey.

To establish a Parent and Family Legacy gift or to receive more information, please contact **Nancy Murray**, Chief Development Officer at —@umd.edu or by phone at XXX-XXX-XXXX.
