Behind the passion to provide the best care and treatment is a personal journey that leads each student to our school.

For Madeline, her journey saw her through the development of a chronic neurologic condition that propelled her to learn more about her own biology.

“With little known about my condition and wanting to help others in similar situations, I pursued a career in health professions.”

After continuing to struggle with her condition, Madeline decided to concentrate on a clinical focus with an opportunity to explore new subjects.

“I can say with confidence I have found my calling in Medical Laboratory Science where I can switch between different subjects such as hematology, immunohematology, chemistry, microbiology, and urinalysis/body fluids, but, more importantly, I can directly contribute to a patient’s wellbeing by helping find diagnostic answers.”

Students, like Madeline, rely on friends like you to support their pursuit of excellence in health care. With your gift, health professions students develop into experienced health care professionals who provide advanced levels of highly sophisticated care in critical segments of the health care system.

Your support is critical, immediate, and helps drive our mission forward. Please consider making a gift today and help us shape the future of health professions.

Together, we make lives better.
