# Support a future physician

---

The annual White Coat Ceremony is a rite of passage that welcomes incoming students to the College of Medicine and ingrains essential qualities for future physicians.

**In celebration of this significant event, we invite you to consider making a gift to support our incoming students. A gift of \$150 will support a first-year student's white coat and stethoscope.**

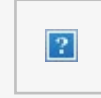

*"I never dreamed I'd be making my goals a reality at UTHSC. The support and generosity I've received since being accepted here outshine anything I expected during my first year.... I'm beyond excited to start this lifelong journey of learning and teaching with you."*

**—Danielle McKenna Bryant,  
Class of 2026**

**Sponsor a student white coat »**

There are many students, just like Danielle, who are grateful for your support of this special memory.

Thank you in advance from the excited, grateful student who will be proudly wearing their white coat!
