

November 2023

Dear <<HH Salutation>>,

What a year it's been for Boston University!

As a longtime Terrier, I'm so proud of what our community has achieved in 2023—across research and teaching, athletics and student life, diversity, equity, and inclusion, and much more.

Thanks to the generous support of donors like you, we:

- Opened the Center for Computing & Data Sciences (CCDS), a sustainable, state-of-the-art building for interdisciplinary collaboration.
- Launched the first professionally staffed campus resource center for LGBTQIA+ students.
- Claimed conference titles in three sports, including men's ice hockey, which had a thrilling run to the Frozen Four.
- Increased scholarships to create "Affordable BU," a new commitment to meet 100% of every student's demonstrated financial need.
- Led advancements in healthcare, such as by studying chronic traumatic encephalopathy in young amateur athletes.

Many students and faculty have even bigger ambitions for the new year, but they need your help to see them through. **Will you support their goals by making a gift to BU?**

Your giving makes a huge difference—whether you choose to renew your donation to <<Column AV>> or give to another BU area or cause you care about. I'm so grateful for your support.

Together, let's reach for new heights in the new year. The sky's the limit!

With Terrier Pride,

Jenny Gruber (ENG'99,'99)
President, BU Alumni Association

PS: Reminder you can make your gift by returning the enclosed reply device or by giving online at bu.edu/cye24 today.
